

STRATEGIC COACH

## Dianne Barlow

Financial Adviser  
Chartered Accountant

### WHAT DIANNE'S CLIENTS SAY

"It's been fantastically empowering and has forced us to have financial discipline, but in a way which doesn't greatly affect our lifestyle. We've had fast results!"

"Dianne really knows her stuff and we have confidence that she walks the talk!"

"I respected the thoroughness of Dianne's questions and the fact I never felt judged"

Dianne's superpower is being able to put herself in her clients' shoes to really understand their values and goals so she can take them on the journey to 'better'.

A chartered accountant with three decades of experience, Dianne knows first-hand how life-changing working with enable.me can be, having been a client herself. That means she still 'walks the talk' of working to a plan, tracking her progress, and employing the power of accountability.

The thrill of helping people achieve their goals never gets old for Dianne – whether that's getting you into your first home, making your final mortgage payment, or being able to feel excited rather than scared about retirement.

One thing you'll never get from Dianne is judgement. What you will get is her insight, her expertise, and a healthy dose of inspiration. A born and bred Aucklander, Dianne loves its diversity, energy, and access to the coast.
