

PERFORMANCE COACH

Maylyn Chai

Financial Adviser

Diploma in Personal Financial Planning

Bachelor of Arts - Psychology

Bachelor of Commerce

WHAT MAYLYN'S CLIENTS SAY

“Maylyn is very responsive, even after the meeting when I have concerns. She is very diplomatic and ensures we are all on the same page, even though my husband and I have very different spending habits/relationship to money”

“I walked into my meeting with Maylyn feeling nervous, but when I left I felt happy and confident to take the next step in my enable.me journey.”

A background in both banking and not-for-profits has made Maylyn skilled in not only helping people reach their financial goals but in dealing with the dynamics of their relationships.

Because finances play such a pivotal and sometimes fractious role in many relationships, this skill is one of her trump cards! A degree in psychology also helps her to tap into what motivates her clients to stay the course.

Maylyn is highly skilled in the technical areas of financial advice, and her humble background, combined with her intuitive and empathetic nature, makes her a financial coach who understands the journey, listens carefully, and cares deeply.

As much a fan of an adventurous skiing holiday as she is a movie night with her family, Maylyn loves life in Auckland with her family.
